## **Voluntary Conversion**

In accordance with federal regulations, the Campbellsville Housing & Redevelopment Authority conducts this initial assessment for each of its covered public housing developments to determine if conversion of existing public housing stock into tenant-based assistance is needed at this time. This initial assessment is a non-binding evaluation of the appropriateness of voluntary conversion for each property.

The assessment is intended to consist of a common sense review of relevant factors for each covered development, and does not require a market study or application of a cost test. In determining that a development may be appropriate for conversion, , the Campbellsville Housing & Redevelopment Authority must conclude that the development meets the following tests:

1. conversion would not be more expensive than continuing to operate the development as public housing;
2. conversion would principally benefit residents of the public housing development to be converted and the community; and
3. conversion would not adversely affect the availability of affordable housing in the community.

Once the required initial assessment is completed, the Campbellsville Housing & Redevelopment Authority will retain and have available for public review a brief narrative description to document its reasoning with respect to each covered development.

### **KY047-001          Ann Acres**

Ann Acres is a well maintained housing development of the Campbellsville Housing & Redevelopment Authority. Ann Acres is divided into 2 separate housing sites consisting of 70 rental units: Site 1 located on Gardner, Ingram, Apache & Kentucky Streets and Site 2 located on Shields Court and East Broadway. Ann Acres has a good racial mix and houses both the elderly and families. Ann Acres, historically the most popular site for applicants and tenants, does not have a vacancy problem and usually stays 100% occupied.

The cost of converting Ann Acres cannot be justified as this development is considered a viable entity to the Housing Authority. Conversion would not benefit the residents of this development as the units are well maintained. Converting this development to tenant-based assistance would further strain the current rental market in the private sector as rental property is scarce and market rents difficult to meet in the Campbellsville, KY area. Elderly, specially, would have a difficult time finding available rental units.

The Campbellsville Housing & Redevelopment Authority recommends that Ann Acres not be converted at this time.

## **Section 8 Homeownership Capacity Statement**

According to guidance plan 3.12.2, the Campbellsville Housing & Redevelopment Authority (CHRA) requires that all Section 8 Homeownership participants seek financing from government approved financial institutions. We require that the lending institutions be able to receive dual payments, be FDIC insured, and participate in equal housing opportunity. The lending institution must be pre-approved prior to financing of the home.

The CHRA can successfully run the Section 8 Homeownership program by establishing pre-purchase counseling for all interested parties with credit issues. The CHRA has established counseling classes for all families interested in the Section 8 Homeownership program prior to actually qualifying for the program. We believe this will offset future defaults by addressing ongoing issues now. The CHRA also requires that all participants live under the Section 8 Voucher Program for at least one year. By doing so, we are able to establish that the resident can manage household expenses. The CHRA has set a limit of 15 families that can participate in the Homeownership program. This limitation will help to ensure one-on-one case management and ongoing support.

## DECONCENTRATION POLICY

It is Campbellsville Housing Authority's policy to provide for deconcentration of poverty and encourage income mixing by bringing higher income families into lower income developments and lower income families into higher income developments. Toward this end, we will skip families on the waiting list to reach other families with a lower or higher income. We will accomplish this in a uniform and non-discriminating manner.

The Campbellsville Housing Authority will affirmatively market our housing to all eligible income groups. Lower income residents will not be steered toward lower income developments and higher income people will not be steered toward higher income developments.

Prior to the beginning of each fiscal year, we will analyze the income levels of families residing in each of our developments, the income levels of census tracts in which our developments are located, and the income levels of the families on the waiting list. Based on this analysis, we will determine the level of marketing strategies and deconcentration incentives to implement.

### Deconcentration Incentives

The Campbellsville Housing Authority may offer one or more incentives to encourage applicant families whose income classification would help to meet the deconcentration goals of a particular development.

Various incentives may be used at different times, or under different conditions, but will always be provided in a consistent and nondiscriminatory manner.
